DETAILED ACTION

1. This action is responsive to the following communications: the Application filed on February 12, 2004, the Foreign Priority filed on February 12, 2004, and the Information Disclosure Statement filed on February 12, 2004.
2. Claims 1-31 are pending in the case. Claims 1, 6, 9, 12, 13, 17, and 21 are independent claims.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. **Claims 1-8, and 12-31**, drawn to a sequential circuit, classified in class 365, subclass 233 (Addressing → Sync/clocking).

Group II. **Claims 9-11**, drawn to a clock generation circuit, classified in class 327, subclass 100+ (Signal Converting, Shaping, or Generating).

The inventions are distinct, each from the other because:

Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group II has separate utility such as not requiring a master cell and a slave cell. See MPEP § 806.05(d).

Art Unit: 2824

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Attorney Michael Fogarty (Reg. No. 36,139) on 10/13/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

When responding to this office action, applicants are advised to provide the examiner with the line numbers and page numbers in the application and/or references cited to assist the examiner in locating appropriate paragraphs.

A shortened statutory period for response to this action is set to expire three months and zero days from the date of this letter. Failure to respond within the period for response will cause this application to become abandoned (see MPEP 710.02(b)).
